Product Designer with 1.5+ years of building AI-powered B2B and products end-to-end from 0→1 builds to scaling interfaces for 10,000+ enterprise users. Proven track record in design systems, usability research, and cross-functional delivery across SaaS and data-intensive platforms.

WORK EXPERIENCE

UX/UI Designer

April 2025 - Present

Vitra.ai - B2B AI-powered content translation and localization platform

Bangalore, India

- Designed end-to-end UX for 4 AI products (Translate.video, Translate.photo, Face swap), scaling interfaces to support large scale enterprise users.
- Led end-to-end product and design for multiple B2B content translation products, taking several initiatives from concept to launch.
- Led UX research, wire-framing, prototyping, and high-fidelity UI design to improve usability, accessibility, and user engagement across web and product platforms.
- Resolved 8+ critical usability gaps through user testing and driving product adoption from 2% to 18% within 2 quarters.
- Partnered with 3 cross-functional teams across 6 product sprints to ship AI workflow interfaces on time and within scope.
- Designed scalable, intuitive interfaces for enterprise users, translating complex data and AI outputs into clear, human-centered experiences.
- Partnered closely with engineering to ensure design quality, consistency, and successful implementation across products. Conducted usability testing and iterated designs based on user feedback and business requirements.

Product Designer

Oct 2024 - March 2025

Get My Stock - B2B Application

Bangalore, India

- Led end-to-end design of a B2B stock management app from 0→1, delivering MVP in 3 months with a 92% usability test success rate.
- Conducted 15+ user interviews and 3 rounds of usability testing, directly informing 20+ design iterations before launch.
- Collaborated with a 5-member engineering team to ensure pixel-perfect implementation, reducing post-launch design bugs by 30%.

EDUCATION

Masters in Computer Application

Jan 2025

Acharya Institutes, Bangalore.

8.4 CGPA

Bachelors in Computer Science

Aug 2022

ST Hindu College, Tamil Nadu.

8 CGPA

SKILLS

Platfroms: Design AI Products Applications, Web Applications (Responsive Web), SaaS Products, Enterprise & Internal Tools, Dashboards & Data-Driven Interfaces, Websites & Landing Pages, Video & Media-Based Applications

Research: Wire-framing, User Research, Information Architecture, Interaction Design, Prototyping, Usability Testing.

Design & Execution: Interaction Design, Visual Design, Wireframing, Prototyping, Responsive Design, Storyboarding, Design Thinking

Tools: Figma, Sketch, Framer, Adobe XD, Claude Code & Design, VS Code, Click-up, Notion.
